Findings:

This worker completed the unannounced spot check at Joann's home on 9/23/22. Joann was concerned that the basement was a mess because of some damage they had to the wall, they had to have the walls braced and they have to tighten them during this process. One of the rooms was almost done as it was in the process of having the drywall replaced and then they will be able to put that room back together. Child care is not in the basement, this worker did not observe any safety concerns.

When looking at files this worker noted that Joann's mandatory reporter training was expired. Joanna stated that she will get that training done as soon as she can.

When looking at the children's files there was one child that was missing the parent contact information sheet, the emergency information, the emergency consent form, immunizations and who can pick up the child

Suggestions/Recommendations:

**** These are general reminders. This does not reflect on the spot check that was completed.

- If you have a child that has allergies (other than seasonal), a written emergency plan must be completed. This plan is to accompany the child if away from the facility.
- Serious injuries and deaths must be reported within 24 hours.
- For each child under the age of 12 months that is present, you must have a crib or crib like furniture for safe sleep practices.
- No child should be allowed to start attending your childcare program until all paperwork has been completed by his or her parent and turned in to you.
- Each child in your care needs to have an updated medical statement or physical annually. All children's file information should be updated annually.
- The vet needs to inspect your pets annually and complete form 470-5153 showing your pet is free of endo and ecto parasites.
- Your private water supply needs to be tested annually.
- No one can be an assistant and/or substitute until you have received the letter from Child Care Registration indicating that person is approved.
- If you are having problems getting a certificate of immunization, the nurse consultant with CCR&R would be able to get this for you.
