Findings:

During the unannounced visit in the Remington home on 9/19/22, this worker found that Theresa's newest dog did not have vet records. Theresa explained that she was going to get Ace in, he was not old enough before, but she can get him in now.

Theresa's teenage son needs to have an updated physical.

Theresa's mandatory reporter had recently expired.

Theresa had started a new family and didn't yet have their files. Theresa was reminded that she should have files prior to children starting in her care.

Suggestions/Recommendations:

**** These are general reminders. This does not reflect on the spot check that was completed.

- If you have a child that has allergies (other than seasonal), a written emergency plan must be completed. This plan is to accompany the child if away from the facility.
- Serious injuries and deaths must be reported within 24 hours.
- For each child under the age of 12 months that is present, you must have a crib or crib like furniture for safe sleep practices.
- No child should be allowed to start attending your childcare program until all paperwork has been completed by his or her parent and turned in to you.
- Each child in your care needs to have an updated medical statement or physical annually. All children's file information should be updated annually.
- The vet needs to inspect your pets annually and complete form 470-5153 showing your pet is free of endo and ecto parasites.
- Your private water supply needs to be tested annually.
- No one can be an assistant and/or substitute until you have received the letter from Child Care Registration indicating that person is approved.
- If you are having problems getting a certificate of immunization, the nurse consultant with CCR&R would be able to get this for you.
