Suggestions/Recommendations:

1. Robin has been using household member Isabella as a substitute when she needs to leave the home. Isabella is not approved as a substitute by the Department and has none of the required training certificates necessary for a substitute. Any care of children if Robin needs to be gone from the home needs to be conducted by a DHS-approved substitute, and cannot exceed 25 hours per month.

2. The home environment is in need of some deep cleaning and significant clutter reduction. I noted a cloud of young flies hovering over the dining room table, dry breakfast cereal covered much of the family room floor, table and counter surfaces had no space or clean areas to feed children or prepare food, and bags of household goods/clothing from her adult daughter dominated much of the floor space.

3. Robin needs to post parent contact information/phone numbers in an accessible location for all of the current children she has in care.

4. Robin needs to install a battery operated smoke detector in her back bedroom where children can nap.

5. Robin needs to obtain a current vet statement for her dog to have on file. This needs to be completed using the State form that I shared a copy of, and needs to be renewed every year.

6. During the time of my visit, Robin had an infant under one year of age sleeping in a crib with a large fleece blanket. A safety plan was signed during the visit.

7. Robin needs to obtain a current physician signed statement of health for herself and Isabella to have on file. These need to be completed using the State form I shared a copy of, and need to be renewed every three years. Robin also needs to obtain a current physician signed statement of health or physical and an immunization sheet for the two children living in her home.

8. Robin needs to obtain current certification in the Mandatory Reporter training to have on file.

9. Robin is missing entire files for many of the children in her care. She needs to assemble complete children's files for all children in care.

Corrective Action Required:

Use of Non DHS-approved substitutes, and any violations in safe infant sleeping must cease immediately. Efforts to begin the process of deep cleaning and clutter reduction need to begin within the coming week.

The remaining corrections need to be in place by 12/31/2023. No re-check is planned at this time. Another annual compliance visit will be conducted early in 2024.

I encourage Robin to work with Casey Shelton from Child Care Resource and Referral with any ongoing compliance or training needs.
Casey can be reached at: (515) 802-8016

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration.
