A provider may contact the licenser or health specialist for technical assistance to achieve compliance.

ENFORCEMENT ACTION. “Enforcement action” means denial, suspension, revocation, modification, or nonrenewal of a license pursuant to RCW 43.216.325(1) or assessment of civil monetary penalties pursuant to RCW 43.216.325(3). A provider may contest enforcement actions and seek an adjudicative proceeding pursuant to chapter 110-03 WAC.

FACILITY LICENSING COMPLIANCE AGREEMENT. A facility licensing compliance agreement (FLCA) means an agreement issued by the department in lieu of the department taking enforcement action against a provider that contains: (i) A description of the violation and the rule or law that was violated; (ii) a statement from the licensee regarding the proposed plan to comply with the rule or law; (iii) the date the violation must be corrected; (iv) information regarding other licensing action that may be imposed if compliance does not occur by the required date; and (v) the signature of the licenser and licensee. RCW 43.216.395(2)(a).

FIRST TIME VIOLATION. A provider who violates a rule of short term or long term concern shall not be cited if that violation is the first time the provider violated that rule, and the violation can be corrected the same day the violation is identified. RCW 43.216.395(6). Violations in this category will be recorded in the technical assistance section.

CHILD CARE VIOLATION DISPUTE PROCESS. Child care violation dispute means a review of an Inspection Report by the department supervisor of the licenser who generated this report. A provider may dispute any violation identified on this Inspection Report within ten (10) business days from today’s date. To begin this process, a provider must complete form 15-907 Child Care Violation Dispute Request, available within the Provider Portal, for each rule violation disputed. Prior to licensing, exiting mechanisms on gates from a licensed outdoor play area to unlicensed space must be equipped with a self-closing and self-latching mechanism (shuts automatically when released from an individual's control). A gate that is not an emergency exit must be locked or self-closing and self-latching.

Observation:

0145(11): Licenser observed the emergency exit gate on the playground closest to the building with a self-closing self-latching mechanism that needs adjusted. The mechanism only works when the gate is pushed hard.
